

Postdoctoral Positions

Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.

Following the open call for technician in line with research activities of the center Agrotecnio published on the 2nd February 2026, the responsible researcher decided on 23rd February, 2026 in Lleida and evaluated the profiles of the applicants. After due consideration, because the candidate demonstrated experience and track record in multiplex genome editing of rice/corn, transformation and regenerating of rice/corn plants and confirmation of mutation structure as presented in her cv. Also demonstrated involvement in GMO/GE field trials, as required in the profile, requirements and merits duly accredited. the committee selected:

- Xin Huang

For the described work “The laboratory requires a researcher to design gRNA for multiplex genome editing of rice/corn, transformation and regenerating of rice/corn plants and confirmation of mutation structure. The candidate will carry out GMO/GE field trials. The candidate will have to provide reports, write manuscripts for publication and carry out statistical evaluation of the results. The candidate will supervise technician staff, master and undergraduate students, and manage a genome editing laboratory.”

The contract will be from March 1st 2026 to December 31st, 2026.

Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.

Lleida, 23rd February 2026

Jose Antonio Bonet
Director
