

Technician Position

Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.

Following the open call for technician in line with research activities of the center Agrotecnio published on the 7th April 2026, the responsible researcher decided on 5th May 2026, in Lleida and evaluated the profiles of the applicants. After due consideration, "Among the candidates who have provided the letter of recommendation, there is one candidate who presents previous experience in an agronomic research laboratory and in soybean cultivation in particular.". Finally the committee selected:

- Joana Nabau

For the described work "Under the coordination of the responsible researcher, the technician will be in charge of establishing and maintaining field trials on commercial farms dedicated to soybean production in different locations, taking soil and plant samples at various stages of crop development, processing the samples in the laboratory, and determining various variables. The technician will be in charge of permanent contact with collaborating producers and the logistics necessary for the smooth development of the experimental activities."

The contract will be from June 1st 2026 to May 31st 2027.

Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.

Lleida, 5th May 2026

Jose Antonio Bonet
Director
