

## Technician Position

*Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.*

Following the open call for technician in line with research activities of the center Agrotecnio published on the 27<sup>th</sup> April 2026, the responsible researcher decided on 21st May 2026, in Lleida and evaluated the profiles of the applicants. After due consideration, "The candidate presents a CV more similar to the one required with Master's degree in soils and experience in agronomic research projects.". Finally the committee selected:

### **- Marie Reichmann**

For the described work "Under the coordination of the responsible researcher, the technician will be in charge of establishing and maintaining two field trials on a commercial farm devoted to soybean production, one assessing crop residues management and another one assessing different active ingredients for weeds control. The technician will be in charge of soil, plant/crop and gas samplings and different variables determination in the laboratory."

The contract will be from July 1<sup>st</sup> 2026 to October 31<sup>st</sup> 2026.

**Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.**

Lleida, 22nd May 2026

Jose Antonio Bonet  
Director
