

TECHNICIAN POSITION

Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.

Clear and precise description of the activity

Agrotecnio requires support from an experienced researcher to support and participate in the execution of different agronomic transfer and research activities. Under relative supervision, the researcher will (and should) have significant autonomy in organizing and executing specific tasks within agronomic consulting contracts, field assays, and intellectual work. The position will be based in Lleida but will require travel to and coordination with partners in neighboring regions.

Place description

Agrotecnio- Universitat de Lleida
Campus Agroalimentari, Forestal i Veterinari
Avinguda Alcalde Rovira Roure, 191. 25198 Lleida

Profile, requirements and merits duly accredited.

The candidate must possess a PhD in Agronomy, with at least 2 years of postdoctoral work. The candidate must have express experience with and be knowledgeable of main extensive cropping systems of Catalonian dryland and irrigated agriculture. Capacities for analysis of data and generation of geographic databases and cartography products will be required. Field visits will be required, and the candidate should also have demonstrated experience in setting up and maintaining multi-year field experiments with the above characteristics.
