

FIELD AND LABORATORY TECHNICIAN POSITION

Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.

Following the open call for technician in line with research activities of the center Agrotecnio published on the August 27th 2026, the responsible researcher decided on 21st September 2026 in Lleida and evaluated the profiles of the applicants. After due consideration, the selection committee decided to select for accomplishing the required merits:

“NATXO GARCIA”

For the described work “The selected candidate will support the development, construction, and testing of equipment used for soil physical and hydrological measurements. The main tasks will include:

- Construction and adaptation of soil physics equipment, including infiltration rings.
- Assembly and completion of an existing rainfall simulator, including the design and construction of missing components.
- Testing, adjustment, and calibration of the rainfall simulator to ensure its correct operation and reproducible use.
- Preparation and testing of equipment prior to its use in field experiments.”

The contract will be from October 1st 2026 to October 31st 2026 if work is finished.

Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.

Lleida, 21st September 2026

Jose Antonio Bonet
Director
