

Call Resolution

Following the open call for technical position in line with research activities of the center Agrotecnio published on the July 14th 2021, the responsible researcher decided on July 29th, 2021 in Lleida and evaluated the profiles of the applicants. After due consideration the committee selected:

Can Baysal

The work will include analyses of rice tissues using different techniques (pcr, qPCR and Northern blot) and collection of samples from growth chamber (rice and corn) to confirm gene integration and expression. The researcher will be expected to analyze existing results and to maintain plants in growth chambers.

The contract will be from Aug 1st 2021 to Set 31st, 2021.

Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.

Lleida, 30th July 2021

Agrotecnio Director

Ignacio Romagosa
