

CALL RESOLUTION: Postdoctoral Position Sequencing-Driven Pig Breeding-AGROTECNIO

The evaluation committee has carefully evaluated the merits and academic background of the candidates for the position offered by AGROTECNIO (deadline on July 29th, 2021). As a result of the selection process, the following candidate is proposed:

Roger Ros Freixedes

The committee has particularly appreciated the outstanding trajectory of Dr. Ros-Freixedes in relation to his age, which in addition fits perfectly to the requirements of the offered post-doc position.

Abisheck Singh (Candidate in hold)

The committee has rejected due to the value of the other candidates:

Yosra Ressaissi

Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.

Lleida, July 30th 2021

Ignacio Romagosa
Agrotecnio Director
