

G25628926

Av. Alcalde Rovira Roure 191,

E-25198 Lleida,

Spain

TEL 973702312

<http://www.agrotecnio.org>

Clear and precise description of the activity

Due to the seasonality of the work involved in the availability of corn embryos during the summer months, we need a technician to carry out: the germination of corn seeds, the transplantation of seedlings, the mixture of substrate, fertilization and irrigation until the embryos are obtained. In parallel, it will have to carry out the pollination of the flowering plants and the evaluation of the maturity of the embryos prior to their isolation.
