

Agrotecnio is recruiting:

One Postdoctoral Researcher

Six Technologists

Five Technicians

This recruitment will be carried out with funding from the "Investigo Programme" with resolution file code 2022 INV-1 00010, for the enrolment of young job seekers in the implementation of research and innovation initiatives, in the framework of the Recovery, Transformation and Resilience Plan, financed by the European Union – NextGeneration UE. It constitutes an action included in Investment 1, "Youth Employment", included in Component 23 "New public policies for a dynamic, resilient and inclusive labour market" of the Recovery, Transformation and Resilience Plan, approved by the Agreement of the Council of Ministers of 27 April 2021, and by the Council Implementing Decision on the approval of the evaluation of the Spanish Recovery and Resilience Plan (Council Implementing Decision-CID) of 13 July 2021.

The Research Center:

The Fundació Centre de Recerca en Agrotecnologia-Agrotecnio is one of CERCA centers of excellence (Research Centres of Catalonia, cerca.cat) and it is focused in agri-food research. Located at the School of Agrifood and Forestry Science and Engineering (ETSEA) of the Universitat de Lleida (UdL), Agrotecnio is a center of reference in scientific innovation in which 15 research groups develop projects of international impact in agriculture, livestock, environmental and food science and technology. In December 2018, the Center received the 'HR Excellence in Research' (HRS4R) logo from the European Commission. This is a recognition of the Center's commitment to developing a Human Resources Strategy for Researchers designed to bring the practices and procedures in line with the principles of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (Charter and Code).

Finançat per

Please, check out our Recruitment Schedule

Selection process schedule	
30 days	Publication and dissemination of the job offer in 1 st September 2022: Agrotecnio website, social networks, other employment websites according to the profile of the jobs offered
Next 2 working days	Transfer of the applicants' CVs to the Selection Committees
Next 10 working days	Meeting of the Selection Committees: - Interview of the pre-selected candidates - Evaluation of the candidates - Communication of the selected candidate to HR
Next 5 working days	Completion of the administration requirements to formalize the employment contract
Immediately after	Approximate contract starting date within one month

Applicants may send inquires by e-mail to Agrotecnio-administration@udl.cat by October 10th 2022. Informal inquiries are welcome and may be sent to the same address.

Agrotecnio is committed to the principles of merit-based recruitment and transparency (OTM-R) in accordance with the HRS4R seal requirements. Which are available for consultation on our website: agrotecnio.org/about/#transparency

Scale of Merits

- | | |
|---|-----------|
| a) Academic curriculum and complementary training | 40 points |
| b) Certified professional experience | 30 points |
| c) Competence test or interview | 30 points |

Any application that does not obtain a score of more than 50 points will not be considered.

The evaluation of curricula vitae and candidates will guarantee the non-discrimination principle. The anonymous or blind curriculum vitae suppresses most of the personal data and references in order to guarantee the principles of equality and non-discrimination, and at the same time focus on the central aspects, which must be none other than the adequacy between the selective process and the functions or tasks to be performed in the specific job offered, thus dispelling any doubt of possible discrimination and guaranteeing the purity and transparency of the process. The personal data and references to be deleted in the selection phase prior to the interview, in which the candidates are selected, are the following:

- Name and surname of the person
- Nationality
- Photograph
- Address and place of residence
- Age
- Gender
- Center of issuance of the qualifications

This requirement of not provide this information is mandatory for candidates.

Applicants responsibly declare with their application that the information they provide is true. In the event that it is detected that these data are not true, the applicants will be excluded from the selection process, without prejudice to other responsibilities that may arise. Once the candidates have been selected for the interview, they will be required to submit the necessary personal references and to provide proof of all data at the end of the selection process.

Lleida, September 1st 2022.

Ignacio Romagosa
Director of the Center

JOB OFFERS

Professional profile Postdoc (1): In Animal Nutrition and Metabolism

Requirements (applications that do not comply with this point will be excluded):

- Be 16 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers with the Catalan Public Employment Service may be hired.
- People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.
- Undergraduate Degree in Animal Science, Veterinary Science or similar
- PhD in Animal Science or similar

These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

- Design and conduction of in vivo and in vitro tests related to animal nutrition,
- Development of analytical techniques aimed at the analysis of compounds biological such as: liquid or gas chromatography, mass spectrometry, microbiological analysis, chemical analysis, molecular and cellular biology, etc.
- Control and analysis techniques for toxic gas emissions (NH₃) will be implemented or with a greenhouse effect (CH₄/N₂O) related to animal production
- Field work in relation to intensive animal husbandry and extensive production
- Participation in the preparation of reports and the writing of publications related to own work or the research group

Desirable but not required/ Nice to have

- Experience in isotopic markers (15N, 14C, etc)
- Experience in sample preparation and analysis for HPLC and GCMS
- Driving License (B)
- Knowledge of written and spoken English.

The Offer:

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

More information contact with: joaquim.balcells@udl.cat

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.
- Duration: 24 months
- Workday: Full-time 37.5 hours per week
- Remuneration: 26.805,48 euros gross/ year

Documents and application deadline:

All applications must include:

- *Blind/Coded CV*
- *Self-Responsible* Declaration of Compliance with all Investigo program requirements.

Deadline: Please submit all the before documents for your application via mail to agrotecnio.administracio@udl.cat, before September 30th. Latest time for the submission of applications: 14:00 h - Europe/Brussels. **Subject of the mail Post Doc**

Position (1)

Selection Committee:

President: Joaquim Balcells

Member 1: Gabriel de la Fuente

Member 2: Joan Estany

Secretary: Miguel Buenestado

Professional profile Technologist (1): In Data Science in the Animal Breeding group

Requirements (applications that do not comply with this point will be excluded):

- Be 16 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers with the Catalan Public Employment Service may be hired.
- People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.
- Degree in biological or agricultural sciences (animal science, veterinary, agricultural engineer or equivalent), with a genetics and animal breeding background.

These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

The technician will be assigned to the Animal Breeding Group, with the commitment of contributing to the capture, filtering, preparation, maintenance and analysis of the databases associated with the current research, contracts and services of the group. In particular, the technician will be involved in the management of the UdLGIM biobank, a resource of tissue and DNA samples and biological data from around 2,000 referenced pigs, and in the analysis of whole-genome sequence data of 500 of these pigs or of their microbiome sequence. In this sense, the selected staff is expected to give support to the computational genomics processes involved in the discovery of genetic variants behind breed authentication, lipid metabolism or disease resilience, and their interactions with saliva and gut microbiota.

More information contact with:

Dr, Joan Estany (email: joan.estany@udl.cat)

Desirable but not required/ Nice to have

- Be studying or have completed an Official Master's Degree.
- Record of research in applied genetics
- Knowledge of practical animal production and breeding in different species
- Experience in working with animals or with animal samples

- Knowledge of written and spoken English.

The Offer

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.
- Duration: 12 months
- Workday: Full-time 37.5 hours per week
- Remuneration: 26.805,48 euros gross / year

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

Documents and application deadline:

All applications must include:

- Blind/Coded CV
 - Letters of reference (optional)
 - Self-Responsible Declaration of Compliance with all InvestiGo program requirements.
- Deadline: Please submit all the before documents for your application via mail to agrotecnio.administracio@udl.cat , before September 30th. Latest time for the submission of applications: 14:00 h - Europe/Brussels. **Subject of the mail Technologist**

Position (1)

Selection Committee:

President: Joan Estany

Member 1: Ramona N. Pena

Member 2: Ignacio Romagosa

Secretary: Miguel Buenestado

Professional profile Technologist (2): In forest pathology in the Forest Management group

Requirements (applications that do not comply with this point will be excluded):

- Be 16 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers in the Catalan Public Employment Service may be hired.
- People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.
- Degree in forestry, biology, ecology or similar.

These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

Description of the tasks

The position will involve mostly working in the lab. The tasks will involve DNA extraction, culturing, isolate pairing and diverse techniques related to usual forest pathology practice. Also, the application will be involved in the preparation of libraries for high-throughput sequencing.

More information contact with: Jonas.oliva@udl.cat

Desirable but not required/ Nice to have

- Official Master's Degree in Forestry, Ecology or similar.
- Experience in microbiology techniques.
- Experience in molecular techniques.
- Knowledge of written and spoken English.

The Offer

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.
- Duration: 24 months
- Workday: Full-time 37.5 hours per week
- Remuneration: 26.805,48 euros gross / year

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

Documents and application deadline:

All applications must include:

- Blind/Coded CV
- Self-Responsible Declaration of Compliance with all InvestiGo program requirements.
- Deadline: Please submit all the before documents for your application via mail to agrotecnio.administracio@udl.cat , before September 30th. Latest time for the submission of applications: 14:00 h - Europe/Brussels. **Subject of the mail Technologist**

Position (2)

Selection Committee:

President: Jonàs Oliva

Member 1: Jordi Voltas

Member 2: Xavier Pons

Secretary: Miguel Buenestado

Professional profile Technologist (3): In field forest pathology in the Forest Management group

Requirements (applications that do not comply with this point will be excluded):

- Be 16 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers in the Catalan Public Employment Service may be hired.
- People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.
- Degree in forestry, biology, ecology or similar.

These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

Description of the tasks

The position will involve working in the field and in the lab processing field samples. The tasks will involve disease measures in the field. Setting up new sampling plots. Recording data and obtaining samples. Preparing samples for DNA extraction and statistical analysis of the data.

More information contact with: Jonas.oliva@udl.cat

Desirable but not required/ Nice to have

- Official Master's Degree in Forestry, Ecology or similar.
- Experience in field sampling techniques.
- Experience in forest pathology measures.
- Knowledge of written and spoken English.

The Offer

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.
- Duration: 24 months
- Workday: Full-time 37.5 hours per week
- Remuneration: 26.805,48 euros gross/ year

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

Documents and application deadline:

All applications must include:

- Blind/Coded CV
- Self-Responsible Declaration of Compliance with all InvestiGo program requirements.
- Deadline: Please submit all the before documents for your application via mail to agrotecnio.administracio@udl.cat , before September 30th. Latest time for the submission of applications: 14:00 h - Europe/Brussels. **Subject of the mail Technologist**

Position (3)

Selection Committee:

President: Jonàs Oliva

Member 1: Jordi Voltas

Member 2: Xavier Pons

Secretary: Miguel Buenestado

Professional profile Technologist (4): In plant phenotyping in the Plant Phenomics group, University of Barcelona

Requirements (applications that do not comply with this point will be excluded):

- Be 16 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers in the Catalan Public Employment Service may be hired.
- People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.

Minimum: degree in biology or equivalent (environmental sciences, biotechnology, biochemistry) or agricultural or forest engineer ...

These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

Description of the tasks

Participating in crop phenotyping tasks, including field activities (remote sensing evaluation, sampling), further image processing and data collation, sample preparation, lab-based analysis (stable isotope and grain quality analyses, gene expression), statistical analyses, drawing figures and preparing reports.

José Luis Araus; jaraus@ub.edu

María Dolors Serret; dserret@ub.edu

Shawn Carlisle Kefauver; sckefauver@gmail.com

Desirable but not required/ Nice to have

- Be studying or have completed an Official Master's Degree.
- Experience in cereals and/or other herbaceous crops....
- Experience in woody species....
- Expressed interest in stating a Doctoral Thesis
- Knowledge of written and spoken English.

The Offer

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.
- Duration: 12 months
- Workday: Full-time 37.5 hours per week
- Remuneration: 26.805,48 euros gross/year
- Place of work: Barcelona. UB Crop Physiology Department

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

Documents and application deadline:

All applications must include:

- Blind/Coded CV
- Other documentation (Recommendation letters...)
- Self-Responsible Declaration of Compliance with all InvestiGo program requirements.
- Deadline: Please submit all the before documents for your application via mail to agrotecnio.administracio@udl.cat , before September 30th. Latest time for the submission of applications: 14:00 h - Europe/Brussels. **Subject of the mail Technologist**

Position (4)

Selection Committee:

President: José Luis Araus

Member 1: Shawn Carlisle Kefauver

Member 2: Gustavo Slafer

Secretary: Miguel Buenestado

Professional profile Technologist (5): Support the Crop Physiology Group

Requirements (applications that do not comply with this point will be excluded):

- Be 18 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers in the Catalan Public Employment Service may be hired.
- People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.
- Degree in Biochemistry, Chemistry, Biotechnology, Biology, Food Science and Technology, Nutrition and Diet, Agricultural and Food Engineering, etc

These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

- Support for experimentation in a research project related to the development of functional foods based on barley high in bioactive compounds.
- Analysis of bioactive compounds.
- Agronomic data collection in experimental fields.
- General laboratory maintenance tasks.

More information contact with: marian.moralejo@udl.cat

Desirable but not required/ Nice to have

- Be studying or have completed an Official Master's Degree.
- Experience in chemical or biochemical laboratories.
- Knowledge of data base processing.
- Knowledge of written and spoken English.

The Offer

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.
- Duration: 24 months
- Workday: Full-time 37.5 hours per week
- Remuneration: 26.805,48 euros gross / year

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

Documents and application deadline:

All applications must include:

- Blind/Coded CV
- List of subjects followed in the Degree with qualifications and numbers of credits.
- Self-Responsible Declaration of Compliance with all InvestiGo program requirements.
- Deadline of first call: Please submit all the before documents for your application via mail to agrotecnio.administracio@udl.cat , before September 30th. Latest time for the submission of applications: 14:00 h - Europe/Brussels.

Subject of the mail **Technologist Position (5)**

Selection Committee:

- **President:** Marian Moralejo
- **Member 1:** Maria Paz Romero
- **Member 2:** Laura Rubió
- **Secretary:** Miguel Buenestado

Professional profile Technologist (6): In Food Processing and Preservation in the Novel Technologies in Food Processing

Requirements (applications that do not comply with this point will be excluded):

- Be 16 years of age or older and under 30 years of age.
 - Only unemployed people registered as job seekers in the Catalan Public Employment Service may be hired.
 - People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.
 - Degree in Food Science and Technology. Alternatively, BSc in Nutrition and Dietetics, Biotechnology, Agricultural Engineering (sp. Food Industry) can also apply if they credit or are developing complementary training within the Food Technology field (e.g. Master in Food Management and Innovation in the Food Industry).
- These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

The technologist will develop research tasks in advanced physical technologies of food processing. The technologist will be involved in the development of treatments with emerging technologies, alone or in combination with biotechnological techniques (enzymes), for the improvement of the technological and physiological properties of extracts and by-products rich in dietary fibre. In addition, he/she will be involved in research activities to study the application of physical technologies for the development of starchy products usable in additive manufacturing. Both lines focus on the development of technologies that make it possible to take advantage of underutilized food fractions and move towards a green economy.

More information contact with: robert.soliva@udl.cat

Desirable but not required/ Nice to have

- Be studying or have completed an Official Master's Degree.
- Experience in activities related to research in Food Science and Technology.
- Knowledge of written and spoken English.

The Offer

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.
- Duration: 24 months
- Workday: Full-time 37.5 hours per week
- Remuneration: 26.805,48 euros gross / year

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

Position (1)

Selection Committee:

President: Àlex Escolà

Member 1: José Antonio Martínez

Member 2: Jordi Recasens

Secretary: Miguel Buenestado

Professional Profile Technician (2): Support the Group of Environmental Chemistry

Requirements (applications that do not comply with this point will be excluded):

- Be 16 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers with the Catalan Public Employment Service may be hired.
- People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.

Position open to any of the following formation backgrounds:

- Professional formation in Chemistry, Lab Analytics, Computer Technologies, etc.

These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

- Management of research lab data. Support to experimentation.
- Exploitation, maintenance and documentation of open computer codes.
- Participation in environmental investigations related to pollutants and nutrients.

More information contact with: galceran@quimica.udl.cat

Desirable but not required/ Nice to have

- Degree, Master or PhD in Chemistry, Engineering, Biotechnology, Physics, etc.
- Complementary studies.
- Experience in chemical laboratories
- Programming experience (e.g. MatLab, C++, Python, Javascript, etc.)
- Knowledge of written and spoken English.
- Knowledge of written and spoken Catalan.

The Offer

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.
- Duration: 24 months
- Workday: Full-time 37.5 hours per week
- Remuneration: 25.197,12 euros gross /year

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

Documents and application deadline:

All applications must include:

- Blind/Coded CV
- Recommendation letters
- The list of the subjects followed in the “Cicle Superior de Formació Professional” or in the degree with qualifications and number of credits, i.e. academic transcript (in French: “relevé de notes”, in Spanish “expediente académico”)
- Self-Responsible Declaration of Compliance with all InvestiGo program requirements.
- Deadline: Please submit all the before documents for your application via mail to agrotecnio.administracio@udl.cat , before September 30th. Latest time for the submission of applications: 14:00 h - Europe/Brussels. **Subject of the mail Technician**

Secretary: Miguel Buenestado

Professional Profile Technician (3): Support the Crop Physiology Group

Requirements (applications that do not comply with this point will be excluded):

- Be 18 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers with the Catalan Public Employment Service may be hired.
- People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.

- Professional profile:

Position open to any of the following formation backgrounds:

Degree in FP or in Agronomy, Biotechnology, Biology, Forestry or related degrees

These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

- Support for experimentation in a research project related to the physiological bases of yield and quality of major crops.
- Agronomic data collection in experimental fields.
- General laboratory maintenance tasks.
- Management of data in spreadsheets

More information contact with: gustavo.slafer@udl.cat

Desirable but not required/ Nice to have

- Experience in crop-physiology or agronomy laboratories.
- Knowledge of data base processing.
- Knowledge of written and spoken English.
- Driver licence

- Be studying or have completed an Official Master's Degree.

The Offer

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.
- Duration: 24 months
- Workday: Full-time 37.5 hours per week
- Remuneration: 26.805,48 euros gross / year

Subject of the mail Technician Position (3)

Selection Committee:

- **President:** Gustavo Slafer
- **Member 1:** Roxana Savin
- **Member 2:** José Luis Araus
- **Secretary:** Miguel Buenestado

Professional profile Technician (4): Lab technician in Animal Breeding (general support and molecular genetics).

Requirements (applications that do not comply with this point will be excluded):

- Be 16 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers with the Catalan Public Employment Service of Catalonia may be hired.
- People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.
- Ongoing studies on laboratory technician or similar degree

These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

- General support on a research lab (sample storing and organisation, preparation of solutions, preparation of material, placing orders, general lab management).
- Support to research tasks (molecular genetics, fatty acid analysis in animal samples).
- Occasional support on animal farm and abattoir sampling, which might involve working off-hours.

More information contact with: Romi Pena (romi.pena@udl.cat)

Desirable but not required/ Nice to have

- Finished studies on Laboratory Technician or similar degree
- Previous experience as lab manager OR previous experience as lab technician
- Experience in working with animals or with animal samples
- Previous experience / general knowledge in molecular genetic protocols
- Previous experience in team working
- Knowledge of written and spoken English.

The Offer

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.
- Duration: 24 months
- Workday: Full-time 37.5 hours per week
- Remuneration: 25.197,12 euros gross / year

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

Documents and application deadline:

All applications must include:

- Blind/Coded CV
- (Optional) Name and contact of previous employers that would vouch for you OR letters of reference
- Self-Responsible Declaration of Compliance with all InvestiGo program requirements.

Deadline: Please submit all the before documents for your application via mail to agrotecnio.administracio@udl.cat , before September 30th. Latest time for the submission of applications: 14:00 h - Europe/Brussels. **Subject of the mail**

Technician Position (4)

Selection Committee:

President: Romi Pena

Member 1: Joan Estany

Member 2: Marian Moralejo

Secretary: Miguel Buenestado

Professional profile Technician (5): Technical position in Animal Nutrition

Requirements (applications that do not comply with this point will be excluded):

- Be 16 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers with the Catalan Public Employment Service may be hired.
- People who have worked in any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.
- Secondary School Certificate

These requirements must be met at the beginning of the contract.

Context and tasks to be developed:

- Chemical analysis of nutrients and aliments
- Technical support in the conduction of in vitro assays; analysis of metabolites; preparation of samples by HPLC and/or extraction of DNA
- Technical support in the conduction of animal trials
- Sample preparation for microbiology analysis

More information contact with: joaquin.balcells@udl.cat

Desirable but not required/ Nice to have

- Be studying or have completed a Degree in Animal Science or similar
- Have completed a vocational training in Laboratory Operations Technician
- Experience in laboratory tasks related to Animal Nutrition
- Experience in animal handling
- Knowledge of written and spoken English.

The Offer

- Type of contract: Temporary
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31st, 2022.

Informative clause of personal data processing

Responsible: Fundació Centre de Recerca en Agrotecnologia

Purpose: Management of job offers.

Legitimation: The legal basis of the treatment is the realization of a selection process to fill a job vacancy.

Addressees: The data will not be transferred to third parties, except in the legal obligations marked by law.

Rights: Access, rectify and delete data, as well as other rights, as explained in the additional information.

Additional information: You can consult additional and detailed information on Data Protection on our website <https://agrotecnio.org/privacy-policy/>

The data provided by applicants will be incorporated into the processing system owned by Agrotecnio with the aim of managing and resolving the selection process, and will be treated in a lawful, loyal, transparent, adequate, relevant, limited, accurate and updated, in compliance with the provisions of Regulation (EU) 2016/679 of the European Parliament and the Organic Law 3/2018, of December 5 (LOPDGDD). The legal basis for the processing of the data is the fulfilment of a legal obligation by the data controller reinforced with the consent of the data subject.

These data must be kept for the period of time strictly necessary to comply with the aforementioned purpose, respecting in any case that determined by the present regulatory bases of the call and the applicable archiving regulations.

Agrotecnio has to communicate the data of the beneficiaries of the contracts to the Agency for the Management of University and Research Grants so that it can exercise its power of management control as an entity attached to this Department.

Certain data may also be communicated to third parties in the public or private sphere, either because the intervention of these entities in the course of the aid management process may be necessary because it is correctly resolved, or because it is provided for in a regulation with the rank of law.

As long as the interested party does not communicate the contrary, it will be understood that its data have not been modified and that it undertakes to notify Agrotecnio of any variation.
