

Call Resolution

Following the open call for technician in line with research activities of the center Agrotecnio published on the 21st July 2023, the responsible researcher decided on 4th August, 2023 in Lleida and evaluated the profiles of the applicants. After due consideration the committee selected

- **Núria Llera.** *To be finishing or have already finished the Degree in Agricultural and Food Engineering and to have studied the subject of Precision Agriculture and Livestock*

Candidate in Hold:

- **Ariadna Cunillera.** *Be studying the last year of the Degree in Agricultural and Food Engineering, demonstrate experience in computer programs useful for the tasks of the contract but not have enough time availability.*

Other candidates: **Laura Tarragó** couldn't start the 4th September so the committee decided to not consider her selection.

For the described work "to contribute to a research project conducted by the Grup de Recerca en AgròTICa i Agricultura de Precisió (GRAP). The tasks will include field and laboratory measurements of leaf area and leaf area index in superintensive almond orchards and in apple orchards. The technician will participate in the field measurements, the complete defoliation of several row sections and in the leaf area measurement tasks."

The contract will be from September 4th 2023 to October 3rd 2023.

Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.

Lleida, 4th August 2023

Jose Antonio Bonet

Agrotecnio Director
