

## CALL RESOLUTION

Following the open call for Postdoc in line with research activities of the center Agrotecnio published on the 7<sup>th</sup> March 2024 the evaluation committees decided on 28<sup>th</sup> March 2024 in Barcelona and evaluated the profiles of the applicants. After due consideration the committee selected for her experience and studies related with the position:

- *Name of the position winner – Salima Yousfi*

There is no candidate in hold because the evaluation committee decided that he other candidate does not provide any evidence of having worked with salinity or with herbaceous crops (wheat, quinoa).

For the described work “Analysis of data already collected from previous collaborations and drafting of a couple of papers, dealing with genotypic response of cereals to irrigation with saline water. The work also includes preparation of a Tables and Figures, including data on yield, agronomical components, mineral content and stable isotopes.”

The contract will initially be from April 25th 2024, to May 24th 2024.

**Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.**

Lleida, 4th April 2024

JOSE ANTONIO BONET  
Agrotecnio Director
