

LAB TECHNICIAN

Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.

Clear and precise description of the activity

The selected person will be involved in the following activities:

- Ordering and maintaining stock and resources.
- Cleaning and maintaining lab equipment, including recalibration of equipment
- Maintaining equipment records and daily work logs
- Receiving, labelling and safely storing samples to be tested.
- Recording tests and analyses and reporting of results
- Providing technical support to scientific investigations and experiments, in the field of molecular biology and product composition determination.
- Occasionally, sampling and data recording in farms and abattoirs. This would require working outside regular timetable.
