

TECHNICIAN

Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.

Following the open calls for technician in line with research activities of the center Agrotecnio published on the 23th October 2024, the responsible researcher decided on November 14th, 2024 in Lleida and evaluated the profiles of the applicants. After due consideration the committee selected:

-Joel Solani

For the described work " Candidates must have skills in programming (C++ and Phyton). It would be appreciated also to have knowledge in data analysis software like R or Power -BI. The main activity will be related to the assembling optimization models with data gathered by sensors in the experimental farm CEP (Centre d'estudis porcins) located in Torrelameu (Lleida) in view of applying Artificial Intelligent methods. Optimization will be related to feeding and slaughtering of pigs."

The contract will be from December 15th 2024 to May 30th, 2025.

This contract is funded by" the activitats de demostració de transferència de coneixements (intervenció 7201), en el marc del pla estratègic de la PAC 2023-2027,corresponents a la convocatòria 2023"

Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.

Lleida, November 14th 2024

Jose Antonio Bonet
Director
