

## **TECHNICIAN**

*Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.*

Following the open call for technician in line with research activities of the center Agrotecnio published on the 27th November 2024, the responsible researcher decided on 21st December, 2024 in Lleida and evaluated the profiles of the applicants. After due consideration the committee selected:

**- Andrea González**

Candidate in hold:

**- Oriol Pérez**

For the described work “The main responsibilities of the work focus on the remote sensing of agroecosystems. The objectives include developing remote sensing-based classification of croplands and other land uses (forests, pastures, etc.) and analyzing their changes over time. Key tasks involve processing and analyzing diverse data sources, including satellite and aircraft imagery and field inventory data. Responsibilities may also include conducting fieldwork and the supporting tasks.”

The contract will be from January 1<sup>st</sup> 2025 to March 31st, 2025.

**Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.**

Lleida, 21st December 2024

Jose Antonio Bonet  
Director
