

Postdoctoral Positions

Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.

Following the open call for technician in line with research activities of the center Agrotecnio published on the 13th December 2024, the responsible researcher decided on 17th January, 2025 in Lleida and evaluated the profiles of the applicants. After due consideration, because the candidates has the merits and accredited wide experience in molecular and agronomic characterization of genetic engineered plants with photosynthetic genes and a very good knowledge of applied statistics, the committee selected:

- Wenshu He

Candidate in hold:

-Xin Huang

For the described work “The candidate will carry out molecular analyses from the tissue and plants recovered from the Photoboost project. The candidate will also carry out agronomic analyses from field plants, do the statistical treatment, prepare reports and manuscripts.”

The contract will be from February 1st 2025 to December 31st, 2025.

Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.

Lleida, 20th January 2025

Jose Antonio Bonet
Director
