

Technician Position

Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.

Following the open call for technician in line with research activities of the center Agrotecnio published on the 24th March 2025, the responsible researcher decided on 17th April, 2025 in Lleida and evaluated the profiles of the applicants. After due consideration,” The candidate selected adequately meets the requirements and merits of the call and, at the same time, has greater experience in research tasks both in the field of extensive herbaceous crops and in data collection and analysis”. Finally the committee selected:

- Joana Nabau

For the described work “Under the coordination of the responsible researcher, the technician will be in charge of establishing and maintaining field trials on commercial farms dedicated to soybean production in different locations, taking soil and plant samples at various stages of crop development, processing the samples in the laboratory, and determining various variables. The technician will be in charge of permanent contact with collaborating producers and the logistics necessary for the smooth development of the experimental activities.”

The contract will be from June 1st 2025 to November 30th, 2025.

Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.

Lleida, 22nd April 2025

Jose Antonio Bonet
Director
