

Postdoctoral Position

Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.

Following the open call for technician in line with research activities of the center Agrotecnio published on the July 2nd 2026, the responsible researcher decided on 30th July 2026 in Lleida and evaluated the profiles of the applicants. After due consideration, the candidate selected by the committee demonstrates extensive experience in multiplex rice genome editing, rice transformation, regeneration, and molecular analyses to confirm mutations. Has been involved in conducting three field trials with GMO plants, possesses supervisory experience, and is proficient in spoken and written English:

- Wenshu He

For the described work “The laboratory requires a researcher to design gRNA for multiplex genome editing of rice transformation and regenerating of rice plants and confirmation of mutation structure for the BIOCRAFT project. The candidate will carry out GMO/GE field trials. The candidate will have to provide reports, write manuscripts for publication and carry out statistical evaluation of the results. The candidate will supervise technician staff, master and undergraduate students, and manage a genome editing laboratory.”

The contract will be from October 1st 2026 to September 30th 2027.

Foot note: Appeals against the outcome of the evaluation and selection process may be directed to the center within one month from the outcome of the call.

Lleida, 31st July 2026

Jose Antonio Bonet
Director
