TECHNICIAN POSITION

Agrotecnio is committed to a diverse and inclusive work environment. Employment is assessed on the basis of qualifications, competence, integrity and organizational needs, in accordance with the HRS4R certification requirements. Women are strongly encouraged to apply.

Clear and precise description of the activity

In the frame of the launching activities of the Center for Genome Editing For Cereal Crops, we are seeking a technician that can address the molecular analysis of transformed plants. Concretely the technician will be in charge of the molecular biology tasks of the lab as well as supporting other related activities of the molecular biology lab. The main tasks to be developed by the candidate include the samples homogenization, sample preparation, ADN extraction and qPCRs.
